

FARMERS, ATTENTION!

TO WHAT IS GOING ON AT
YOUR OWN COLLEGE

CLASS IN FORESTRY.

CLASS IN COOKING.

FORESTRY

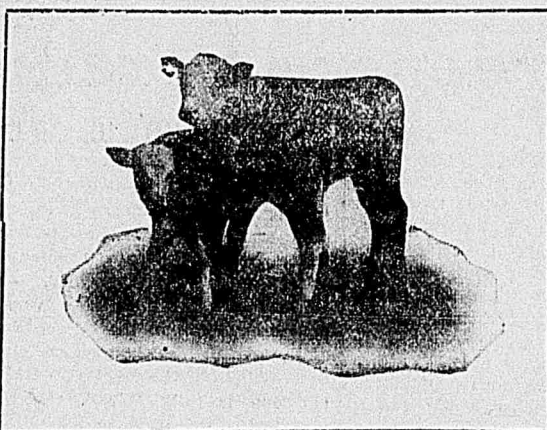

Our Government is constantly calling for more trained men to enter the Forest Service. No more pleasant or promising occupation can be found. The college offers an eight weeks' course in the various branches of technical forestry, surveying, grazing, etc. Assistant Forester J. E. Rathery, of the Division of Forestry, will conduct the course.

DAIRYING

Learn how to turn milk into money! Hundreds are doing that and getting rich at it. Utah has unbounded possibilities in this direction. At the A. C. you get an opportunity to work in a model dairy.

MECHANIC ARTS

Either come yourself or send your boys to learn how to do odd jobs of carpentry, horse-shoeing, general blacksmithing, about the farm. It will save you scores of dollars, besides giving you great pleasure in the learning.

HEREFORD CALVES.

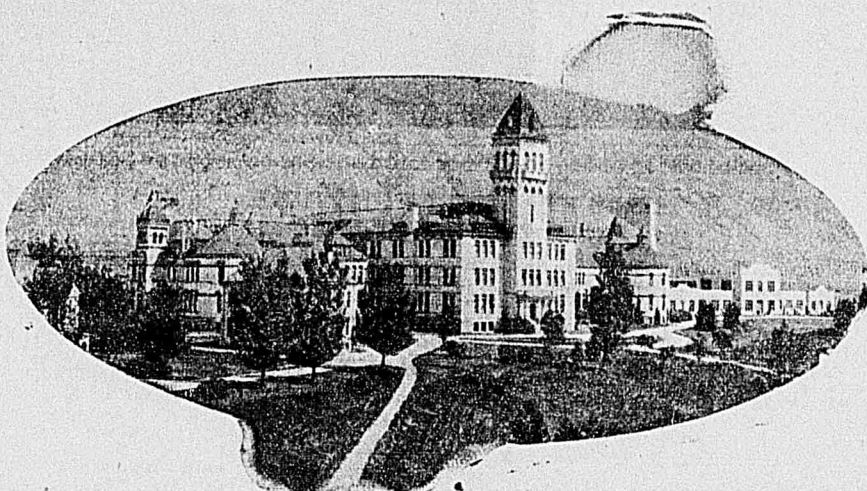

THE AGRICULTURAL COLLEGE OF UTAH

LOGAN, UTAH

Offers you this winter, short, practical, up-to-date, inexpensive courses in the following subjects:

DAIRYING From Jan. 5, to Feb. 1, 1909
IRRIGATION From Jan. 5, to April 15, 1909
ROAD CONSTRUCTION From Jan. 5, to April 15, 1909
SUGAR BEET GROWING From Jan. 5, to April 15, 1909

FORESTRY From Jan. 5, to March 2, 1909
DOMESTIC SCIENCE AND ARTS From Jan. 5, to April 5, 1909
COMMERCE From Jan. 5, to April 5, 1909
MECHANIC ARTS From Jan. 5, to April 15, 1909

FROM JAN. 11 TO JAN. 25.

STATE FARMERS' ROUND-UP

WHAT IS IT?

It is a two weeks' series of meetings, lectures, demonstrations, clinics, questions and replies, discussions of modern methods. It is something you cannot afford to miss! It is your opportunity to find out anything you want to know about farming. The first week is devoted to animal husbandry, the second to plant productions. There are special lecturers from other colleges, as well as our own faculty. Entrance fee, one dollar!

WHY WASTE THE PRECIOUS WINTER MONTHS?

Pack your grip and come to Logan for a few weeks' relaxation and inspection. The entrance fees are very low: \$2.50 for the short winter courses, \$1.00 for the Round Up. Board and room can be obtained in Logan for \$3.00 to \$4.00 a week.

WRITE TO THE COLLEGE FOR SPECIAL CIRCULAR.

COOKING AND SEWING

For three months women and girls of the state who cannot attend school the whole year, may pursue these important branches of study. The kitchens, laundry and sewing rooms are perfect in their equipment.

SUGAR BEET GROWING

Farmers must learn how to make the most of this industry of the future, which is already pouring millions into the coffers of the state. Experts from various schools will be in to discuss all the phases of this branch of agriculture.

COMMERCE

It is not enough to produce. There must be men to sell the produce. Such men are annually trained in considerable numbers by the A. C. U. Dept. of Commerce. You can get a good start in this course during the winter months.

BANKING AND REAL ESTATE.

HENRY F. MILLER, JULIUS BAUER POOLE AND SCHILLER PIANOS

We are Headquarters for
